The terminal disclaimer filed on February 28, 2006, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on application serial number 10/600,725 has been reviewed and is accepted. The terminal disclaimer has been recorded.

This application is in condition for allowance except for the following formal matters:

Several pages of the specification include words missing one or more letters, such as at the bottom of page 1 and at the bottom of page 8. Additionally, on page 8, line 24, --to-- should be inserted after "controller (40)". The Applicant may correct these problems by submitting an amendment in compliance with 37 CFR 1.121(b). (Attention is also directed to MPEP § 608.01(q).) In claim 71, line 2, the misspelling of "plantar" should be corrected.

Prosecution on the merits is closed in accordance with the practice under Ex parte Ouavle, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.
